Objective

Results-driven Full Stack .NET Developer with hands-on experience in ASP.NET, C#, MVC, SQL Server, and modern front-end technologies. Strong background in software engineering, data structures, databases, and web development, with proven skills in problem-solving, clean code, RESTful APIs, and teamwork. Committed to continuous learning and delivering scalable, high-quality web applications.

Education

Bachelor of Computer Science & Artificial Intelligence

2023 – 2027

Beni-Suef National University

Major: Artificial Intelligence & Data Science

Courses

Full Stack .NET Track

11/2025 – 05/2026

Digital Egypt Pioneers Initiative (DEPI)

Beni-Suef, Egypt

- **Back-End:** Developed web applications using C#, ASP.NET Core Web API, ASP.NET MVC, with SQL Server for data persistence, using Git & GitHub for version control.
- **Front-End:** Built responsive user interfaces using HTML5, CSS3, and JavaScript.
- Completed a Capstone Project, and gained exposure to freelancing fundamentals and soft skills.

AI Fundamentals Course

01/2026 – 02/2026

International Business Machines (IBM)

Online

- Learned Artificial Intelligence fundamentals and core AI concepts.
- Gained foundational understanding of how AI is used in real-world systems.

Web Designer

08/2025 – 09/2025

National Telecommunication Institute (NTI)

Online

- Designed modern web interfaces using HTML5, CSS3, Bootstrap4, and JavaScript (ES6+).
- Applied responsive design techniques for multi-device compatibility.
- Introduced to freelancing concepts and essential soft skills.

Introduction to Web Technologies

07/2025 – 08/2025

Information Technology Institute (ITI)

Beni-Suef, Egypt

- Studied core web technologies including HTML5, CSS3, Bootstrap4, and JavaScript (ES6+).
- Built responsive web pages following Responsive Web Design principles.

Frontend Development Guide

06/2025 – 07/2025

Udemy

Online

- Developed interactive user interfaces using HTML5, CSS3, JavaScript (ES6+).
- Implemented responsive layouts using Bootstrap4.
- Enhanced UI interactivity and DOM manipulation using jQuery.

Certificates

Artificial Intelligence Fundamentals: IBM SkillsBuild

Web Designer Training: (NTI) Intensive summer training (120 hours) in Web Design.

UI/UX Introductory Session: Switch Code

Introduction to Web Technologies: (ITI) Completed 60-hour training.

Soft Skills Course: Takenda Courses

Digital Transformation & General English: Al Safa Academy Training.

Skills

Technical Skills

Backend.NET Development

- C#, SOLID Principles, Basic Design Patterns
- Database Design, SQL Server, Entity Framework Core, LINQ
- ASP.NET Core & ASP.NET MVC, RESTful APIs
- Git & GitHub

Frontend Development

- HTML5, CSS3, UI & UX design
- Responsive Web Design, Bootstrap 4
- JavaScript (ES6+), jQuery

Non-Technical Skills (Soft Skills)

- Communication Skills
- Problem Solving
- Teamwork & Collaboration
- Critical Thinking
- Time Management & Discipline
- Ability to Work Independently
- Self-Learning
- Attention to Details
- Leadership

Languages

Arabic : Native

English : Intermediate (B1)
